COMMUNITY WORKSHOP:
COCONET - RESULTS, SUSTAINABILITY, AND CAPACITY BUILDING

MAY 3 - 5, 2016 • PUNTA CANA, DOMINICAN REPUBLIC

The organizing committee for the NSF-funded Community Workshop: COCONet - Results, Sustainability, and Capacity Building would like to extend an invitation to you to complete an application for funding to attend and participate in the workshop, which will be held in Punta Cana, Dominican Republic for 3 days, from May 3-5, 2016. This fourth and final COCONet workshop will focus on science results directly funded, facilitated, or based on data from COCONet, data availability and access, network sustainability, and development of a plan for additional capacity-building in the region. The workshop format will include plenary talks, open discussions, breakout sessions and poster sessions. The workshop will include a 1/2 day training for the Dataworks System for Regional Data Center operation. We look forward to a stimulating international workshop.

Registration Application:

Registration will begin on Wednesday, March 9, 2016.

Applications will be accepted through Friday, March 25, 2016.
http://coconet.unavco.org/meetings/meetings.html

The application process will include a submission of a short summary of your interest in the COCONet project addressing research, outreach, capacity building, or sustainability of the cGPS-Met network, along with questions related to topics that will be discussed in the meeting.

Support:

Meals & Lodging for 4 Nights
Round-Trip Airfare
Round-Trip Airport Transfers

We encourage that attendees who are able to travel using other resources consider this option in order to increase the number of students who would be supported to attend this workshop.

Applicants will be notified of acceptance by April 4, 2016.
