Colleagues,

Registration for the community workshop for COCONet is now open. The workshop will be held at the the Gran Meliá Golf Resort in Rio Grand

The workshop will provide broad science input to support the following goals:

- Refine the overarching science plan for pan-Caribbean GPS infrastructure.
- Revise the GPS station siting plan in light of science goals and existing open-data GPS infrastructure.
- Develop a mechanism for ongoing science oversight.
- Define capacity building activities and funding mechanisms, including development of the scientific and technical capacity of th

We aim to attract a diverse and international community of scientists and students interested in advancing these goals. Please also forwa

To register and apply for support, please visit:

COCONet is a four-year award for Caribbean-wide regional GPS observations using a facility infrastructure for geoscience investigation of :

The Continuously Operating Caribbean GPS Observational Network (COCONet) will consist of 50 new CGPS and meteorology stations designed to .

There will be an opportunity to register existing, geodetic quality, open data stations for consideration to be included in the COCONet da

Please join us in Puerto Rico in February!

Tim Dixon

Organizing Committee:

Tim Dixon, University of Miami, Organizing Committee Chair

Richard Robertson, UWI – Seismic Research Centre, Vice Chair

Guoquan Wang, University of Puerto Rico; Local Host

John Braun, UCAR

Eric Calais, Purdue University

Mike Jackson, UNAVCO

Rob Kursinski, University of Arizona, Caribbean NSF PI (AGS)

Glen Mattioli, UT - Arlington, Caribbean NSF PI (EAR)

Meghan Miller, UNAVCO

Hector Mora Paez, INGEOMINAS

Raj Pandya, UCAR, Education, Outreach & Capacity Building
